PROFESSIONAL SUMMARY:

IT Support Engineer with nearly three years of progressive experience at Lucky Cement Limited, specializing in L1/L2 technical support, Windows Server administration, Active Directory, Microsoft 365, network administration, endpoint security, and enterprise applications. Skilled in troubleshooting IT infrastructure, maintaining system availability, and resolving hardware, software, and network issues to ensure reliable business operations.

PROFESSIONAL EXPERIENCE:

IT Support Engineer Nov-2024 - Present
Lucky Cement Limited | Pezu Plant, Lukki Marwat

- Provide L1/L2 technical support for hardware, software, operating systems, printers, network connectivity, and enterprise applications; deliver remote and on-site assistance to end users, departmental heads, and senior management.
- Install, configure, deploy, maintain, and troubleshoot desktops, laptops, printers, IP phones, IP cameras, and other IT peripherals.
- Administer Active Directory, including user and computer accounts, password resets, account lockouts, domain joining, security groups, OUs, GPOs, and access permissions.
- Support Windows Server services, including DNS, DHCP, file services, IIS, and Windows Admin Center; manage NTFS permissions and shared-folder access.
- Manage and troubleshoot Cisco network switches, including creation of VLANs, 802.1Q trunking, STP/RSTP, port security implementation, inter-VLAN connectivity, IPv4 addressing, and subnetting.
- Diagnose LAN/WAN and wireless connectivity issues using TCP/IP, DNS, DHCP, ARP, and ICMP; troubleshoot wireless access points and IP phones, and coordinate with network teams and ISPs to resolve incidents.
- Maintain endpoint security using Kaspersky Endpoint Security, including installation, antivirus database updates, system encryption, and Windows security patches;
- Support and troubleshoot Microsoft 365 applications, including Outlook, OneDrive, Teams, and Office.
- Install, configure, and troubleshoot SAP business applications; maintain IT asset inventories and technical documentation, and manage equipment deployment, hardware replacement, and software installation.

IT Trainee Engineer Nov-2023 – Oct-2024
Lucky Cement Limited | Pezu Plant, Lukki Marwat

- Assisted the IT team with installation, configuration, maintenance, and troubleshooting of desktops, laptops, printers, operating systems, and standard business applications.
- Supported routine IT operations, including user assistance, basic network connectivity troubleshooting, equipment deployment, software installation, and IT asset documentation.
- Gained hands-on experience with enterprise IT infrastructure, Windows environments, Active Directory, networking fundamentals, endpoint security, and SAP business applications under the guidance of senior IT personnel.

CORE COMPETENCIES:

- **Operating systems:** Windows 10/11, Windows Server, Linux
- **Microsoft Technologies:** Active Directory, DNS, DHCP, Microsoft 365, Outlook, Microsoft Teams, Windows Admin Center.
- **Networking:** TCP/IP, DNS, DHCP, VLAN, Switching, Subnetting, Network Troubleshooting, Cisco, Aruba, IMC
- **Virtualization:** VMware Workstation, VMware ESXi 6.7, Microsoft Hyper-V, VM creation, configuration, resource allocation, and basic troubleshooting.
- **Web and Database:** HTML, CSS, Bootstrap, JavaScript, React.js, SQL, MySQL, Firebase
- **Cloud Technologies:** AWS Core Services, Compute, Networking, Database, AWS three-layer model (IaaS, PaaS, SaaS).
- **Applications:** MS Office, Remote Desktop, AnyDesk, TeamViewer

CERTIFICATIONS AND TRAINING:

IT Support to System Administration — TechKhwa Academy

- Studied IT Support practices, System administration including Windows server and their services like Active Directory, DNS, DHCP, File Server, IIS; Windows-based IT infrastructure management.

AWS Academy Cloud Practitioner

- Learned cloud computing fundamentals, core AWS services, cloud security concepts, and basic cloud architecture.

Network Fundamentals — Cisco Networking Academy

- Studied networking components, protocols, IPv4 and IPv6 addressing, subnetting, and basic network troubleshooting.

Windows 11 Security Hardening Training — ICS/IT Summer Certification Program 2026

Institute of Computer Science and IT, University of Agriculture

- Completed a 3-day online training covering Windows 11 security hardening, system security configurations, and endpoint protection best practices.

Certificate in information Technology (CIT)

Covered computer fundamentals, Microsoft Office applications, and basic networking concepts.

EDUCATION:

B.Sc. Computer Systems Engineering (CGP: 3.07/4.00) Session: 2019-2023

University of Engineering and Technology, Peshawar Peshawar, Pakistan
