Portfolio: https://ashfaq1795.github.io/ashfaq-it-portfolio/

PROFESSIONAL SUMMARY:

IT Support Engineer with approximately three years of progressive experience at Lucky Cement Limited (Pezu Plant), providing L1/L2 on-site and remote support in a Windows Active Directory environment. Hands-on with Windows 10/11, Microsoft 365 and Outlook troubleshooting, Active Directory account administration, Kaspersky endpoint security, SAP application support, and LAN/WAN connectivity troubleshooting on Cisco and Aruba networks. B.Sc. in Computer Systems Engineering, with supplementary lab and coursework knowledge of VMware and AWS.

CORE COMPETENCIES:

Support & Service Delivery: L1/L2 Technical Support, Incident Troubleshooting, Remote & On-site Support, User Onboarding/Offboarding, IT Asset Management, Technical Documentation
Operating Systems & Microsoft 365: Windows 10/11, Microsoft 365, Outlook (configuration & troubleshooting), Teams, OneDrive, SharePoint, Microsoft Office
Active Directory & Access: User/computer accounts, security groups, OUs, Group Policy, domain joining, password resets, account unlocks, NTFS permissions, shared folders
Endpoint Security: Kaspersky Endpoint Security, antivirus updates, system encryption, Windows security updates
Hardware & Applications: Desktops, laptops, printers, IP phones, IP cameras, SAP applications; Remote Desktop, AnyDesk, TeamViewer
Networking: TCP/IP, DNS, DHCP, ARP, ICMP, LAN/WAN and Wi-Fi troubleshooting, Cisco & Aruba switches, VLAN fundamentals
Supplementary (lab/training): VMware Workstation, VMware ESXi, Microsoft Hyper-V fundamentals; AWS Academy Cloud Practitioner coursework

PROFESSIONAL EXPERIENCE:

IT Support Engineer Nov-2024 - Present
Lucky Cement Limited | Pezu Plant, Lukki Marwat

- Provide L1/L2 remote and on-site support to end users, department heads, and senior management for hardware, Windows, application, printer, and network connectivity issues.
- Troubleshoot Microsoft 365 applications, including Outlook configuration and mailbox issues, OneDrive, Teams, and Office.
- Administer Active Directory user and computer accounts: password resets, account unlocks, domain joining, security group membership, OU placement, and access permissions; work with Group Policy settings.
- Manage NTFS permissions and shared-folder access; support Windows Server services including DNS, DHCP, file services, IIS, and Windows Admin Center.
- Install, configure, deploy, and maintain desktops, laptops, printers, IP phones, IP cameras, and peripherals; handle hardware replacement and software installation.
- Maintain endpoint protection with Kaspersky Endpoint Security (installation, antivirus database updates, system encryption) and apply Windows security updates.
- Manage and troubleshoot Cisco network switches, including creation of VLANs, 802.1Q trunking, STP/RSTP, port security implementation, inter-VLAN connectivity, IPv4 addressing, and subnetting.

- Diagnose LAN/WAN and wireless issues using TCP/IP, DNS, DHCP, ARP, and ICMP; coordinate with network teams and ISPs to resolve incidents.
- Install, configure, and troubleshoot SAP business applications for end users.
- Maintain IT asset inventory and technical documentation; support user onboarding/offboarding and IT asset clearance.

IT Trainee Engineer Nov-2023 – Oct-2024

Lucky Cement Limited | Pezu Plant, Lukki Marwat

- Assisted the IT team with installation, configuration, maintenance, and troubleshooting of desktops, laptops, printers, operating systems, and standard business applications.
- Supported routine IT operations, including user assistance, basic network connectivity troubleshooting, equipment deployment, software installation, and IT asset documentation.
- Gained hands-on experience with enterprise IT infrastructure, Windows environments, Active Directory, networking fundamentals, endpoint security, and SAP business applications under the guidance of senior IT personnel.

CERTIFICATIONS AND TRAINING:

IT Support to System Administration — TechKhwa Academy — Windows Server, Active Directory, DNS, DHCP, file server, and IIS; Virtualization; Windows-based IT infrastructure management.
Network Fundamentals — Cisco Networking Academy — Networking components and protocols, IPv4/IPv6 addressing, subnetting, and basic network troubleshooting.
AWS Academy Cloud Practitioner— Studied cloud computing fundamentals, core AWS services, cloud security concepts, and basic cloud architecture.
Windows 11 Security Hardening Training — ICS/IT Summer Certification Program 2026 — Institute of Computer Science and IT, University of Agriculture. 3-day online training: Windows 11 security hardening, system security configuration, and endpoint protection best practices.

EDUCATION:

B.Sc. Computer Systems Engineering

University of Engineering and Technology, Peshawar, Pakistan | 2019 – 2023 | CGPA: 3.07/4.00
